**906/484-2821**

Located on Meridian Street south of the intersection in Cedarville, this land and islands community became a home to boat builders and more with a rich cultural and familial history. Begin with a focus on Native American Culture then remember a time when Great Lakes Passenger boats brought families to many Les Cheneaux Hotels to escape the polluted industrial cities for the fresh island breezes of the North. See displays of lumbering, hunting, fishing, wildlife and flora, with annual changing exhibits. Find or add information about local family histories. Watch for interesting historical and musical programs throughout the Memorial Day Weekend to Labor Day season. Ask for dates and times.

### **Maritime Museum**

**906/484-3354**

Located 4 blocks east of the intersection in Cedarville. View skilled canoe and kayak craftsmen making next year's raffle entry on weekday mornings in the "working" boat shop. Do research at the Richie and Sadie Nye Library for those interested in a broad array of maritime topics. Survey a remarkable display of canoe, racing, motor, sail and other early boats used for transportation in the island community, many built by local builders. Marvel at the "to scale" boat models. Enjoy the outstanding display of early outboard motors, fishing, and other boating paraphernalia located on two levels.
